**ets RECEIVES PRESTIGIOUS IACET ACCREDITATION**  
*Florida Education and Training Firm Achieves International Standard of Excellence*

**Cocoa, Florida, January 16, 2019** – Electronic Training Solutions, Inc. (ets) recently became accredited by the International Association for Continuing Education and Training (IACET) as an IACET provider for Continuing Education Units (CEU). In gaining this approved national standard, ets successfully mastered IACET’s rigorous accreditation process. ets validated the organization’s commitment to best practices in adult learning and professional training.

ets’ is nationally recognized for their proven expertise in working with clients to achieve and maintain organizational excellence through a dynamic balance of training and internal skills, along with complementary guidance. The firm works with public, private and non-profit organizations through the provision of professional education and training which is aligned with the goals and objectives of each of their clients. ets provides training and consultation for: award recognition, board development, leadership systems, organizational assessments, process management and improvement, and strategic planning.

Speaking on the IACET accreditation award, Maria Mogollon, President & CEO said, “ets is honored to receive this professional achievement, which is recognized as an industry standard for lifelong learning. The IACET accreditation allows ets to offer IACET CEUs for professional education and training.”

ets is a Florida based corporation based in Cocoa, FL, providing professional education and training programs to public, private, government, and non-profit organizations across the U. S. and internationally.
